

# Air to Air Heat Exchanger Cooling Solutions

2011 Product Series

[www.deltaww.com](http://www.deltaww.com)

## ABOUT DELTA

Delta Group is the world's leading provider of power management and thermal management solutions, as well as a major source for components, visual displays, industrial automation, networking products, and renewable energy solutions. Delta Group has sales offices worldwide and manufacturing plants in Taiwan, China, Thailand, Japan, Mexico, India, Brazil, and Europe. As a global leader in power electronics, Delta's mission is, "To provide innovative, clean and efficient energy solutions for a better tomorrow." Delta is committed to environmental protection and has implemented green, lead-free production and waste management programs for many years.

## THE HEAT EXCHANGER

Dedicated to in renewable and high efficiency energy saving solutions, Delta has developed a series of Air to Air Heat Exchanger products for cooling enclosed outdoor cabinets. These products offer an energy saving and cost effective design for high density / high power enclosed cabinet cooling for Telecom communication, Power distribution and Industrial applications. Delta heat exchanger products completely prevent air contamination, dust and humidity issues caused by outside environments. Its free ambient cooling technology provides high efficiency operation, and high reliability so less maintenance is required. The heat exchangers meet customer thermal requirements as well as NEMA enclosure standards. Delta manufactures a wide range of standard heat exchangers for customer application options.

# BENEFITS OF DELTA HEAT EXCHANGERS

- Total Quality Control from Fan module, Control Board to Heat Exchanger.
- Optimized Cooling performance and Economic Power consumption.
- Optimized Cooling Capacity with smaller dimension and Lighter Weight.
- Easy Installation and Simple Maintenance.
- High Reliability with IP55, GR 487 Standard.
- Optional control and detective function for easy maintenance and control.
- Short LT for Standard series products for easy selection and application.

Item	Level
Fan life	L <sub>10</sub> =80000 hrs @ 40°C
Safety	
Water proof (external)	IEC 60529 IP55
Salt fog (external)	IEC 60068-2-52 severity 4 , 6 cycles
EMI	CISPR 22 class B
ESD	Air +/-15KV , contact +/-8KV , 10 times
Surge	+/-2KV line to ground , 10 times

## HEAT EXCHANGER INTEGRATION EXPERTISE

Using highly automated manufacturing processes strict quality control, Delta production integration assures total module production effectiveness, high quality products, and optimal TCO for custom designed thermal solutions.

### Value added from Delta Integration Expertise:

#### 1. Design

In the early design concept stage, Delta is dedicated to maximizing customers benefits for better cooling performance, cost efficiency, and ease of manufacture to meet customer applications for different industries.

#### 2. Production

With experience in high volume manufacturing, Delta's manufacturing and automation department implements continuous improvement for process control and increased manufacturing efficiency.

#### 3. Testing and Quality

Delta's manufacturing meets ISO 9001:2000 standards. In house reliability testing equipment for IP 55, IP56 ensures product quality, and long product life for your application.

## Delta Heat Exchanger Standard Product Model

		HEX030PA	HEX050PA	HEX080PB
Cooling capacity (W/K)		30	50	80
Dimension HxWxD (mm)		620x164x148	500x445x152	850x500x160
Air Flow (CFM/CMH)	External	180/306	210/357	170/289
	Internal	180/306	210/357	210/357
Rated voltage (V)		48	48	48
Temperature range (°C)		-10 ~ +65	-10 ~ +65	-10 ~ +65
* Noise (dB-A)		70	65	68
Weight (kg)		6	10	14
Max. Power (W)		65	70	87
Fan Type		Axial	Axial	Axial
Safety		UL, cUL, TUV, CE	UL, cUL, TUV, CE	UL, cUL, TUV, CE
Environment protection		IP55	IP55	IP55
Mounting type		Internal Mount	Internal Mount	Internal Mount

# DELTA HEAT EXCHANGER BEYOND YOUR EXPECTATIONS

If current products do not satisfy your needs, you are invited to experience the benefits of Delta Heat Exchanger products.

Delta customized Heat Exchangers are at least **10%** smaller than heat exchangers currently on the market, while providing the same cooling capacity.

Delta Heat Exchangers use high efficiency and reliable fans for **Longer Life** applications.

Delta customized Heat Exchangers offer at least **20%** lower power consumption.

Heat Exchangers save energy and TCO.

## Customized Solutions

Delta can satisfy all customer needs by either providing standard heat exchanger products, or customized heat exchanger products which meet specific customer requirements. As specialization is a trend for all business models, Delta offers trusted thermal management solution expertise to provide the best solution for current thermal design challenges. From design concept and prototype to verification and performance testing, to mass production quality control, Delta provides professional design and manufacturing systems to offer you lower cost, better performance and quality in less time.

Please contact your Delta Regional Service specialist for further support.

"To provide innovative, clean and efficient energy solutions for a better tomorrow" is Delta's corporate mission. Delta is committed to protecting the Earth's environment by developing eco-friendly and energy-saving products, adopting environmentally friendly practices and reducing our impact on the environment.

# GLOBAL OPERATIONS

- Sales Offices
- Manufacturing Plants
- R&D Labs
